

FACTS NOT FEAR

What the mainstream media **do not** want you to know

THIS IS IMPORTANT

1 99+% OF PEOPLE RECOVER

The risk of death from COVID for the healthy general population of school and working age is comparable to that of a daily car ride to work [1]. In Ireland, the average age of someone who dies of COVID is mid 80s. For most people it is NOT a deadly disease [2].

2 Most people diagnosed have NO or very mild symptoms.

Most so-called COVID "cases/infections" are **healthy people** who do not require any treatment or hospitalisation [3].

3 The COVID testing is totally unreliable.

Up to 90% of reported "COVID positive" cases are inaccurate "false positives". This is why the inventor of the PCR, Dr Kary Mullis, has said that it was **never designed to be used for diagnosing any illness** [4]. Faulty testing means massive number of healthy people are being falsely diagnosed as being "infected". The more flawed COVID testing is done, the more false "cases" are being reported and sensationalised by the media to cause completely unnecessary public fear [4].

4 International legal action is being taken against the WHO.

An international alliance of medical doctors, scientists and lawyers are taking legal action against the World Health Organisation for gross **medical negligence** in the use of PCR tests, promoting unnecessary fear and causing massive social, economic and medical harm through lockdowns [5].

5 Lockdowns are totally unnecessary and harmful to health.

Thousands of jobs are being destroyed, cancer screenings cancelled, families and individuals are being put under enormous stress and loneliness and suicide rates are rocketing. **Lockdowns are far worse than the disease.** Countries like Sweden and Japan have not imposed lockdowns and people live as normal [6].

6 Wearing a facemask is unnecessary and harmful.

A facemask will NOT protect anyone against ANY virus. To prevent a virus infection, you need to wear a fully sealed hazmat suit. However, **wearing facemasks for any extended periods makes you MORE likely to become ill.** By reducing your oxygen intake and inhaling waste air and bacteria, you are at far greater risk of respiratory infections and gum disease [7]. Because of these dangers, countries such as **Sweden do not require people to wear masks.**

7 The most powerful protection you have is your body's own natural immune system

which is strengthened by exercise, sunshine, fresh air, quality food and positive social contact—**not lockdowns.** But **there are no profits in natural immunity** for the powerful pharmaceutical lobby. That is why **boosting natural immunity is being deliberately ignored** but hugely profitable vaccines are promoted. There is also a proven, affordable, safe and efficient COVID treatment available for anyone who shows severe symptoms [8].

Unfortunately **doctors who speak out are being silenced** [9]. At the same time, the HSE is paying medical staff to do more faulty tests and bonus payments for carrying out vaccinations (€150 per 10 children vaccinated)[10]. Globally, the powerful profit-led vaccine industry, mainstream media and the medical establishment are being incentivised to promote the fear needed to bring in the compulsory vaccinations.

EVERY WEEK 600+ PEOPLE DIE IN IRELAND

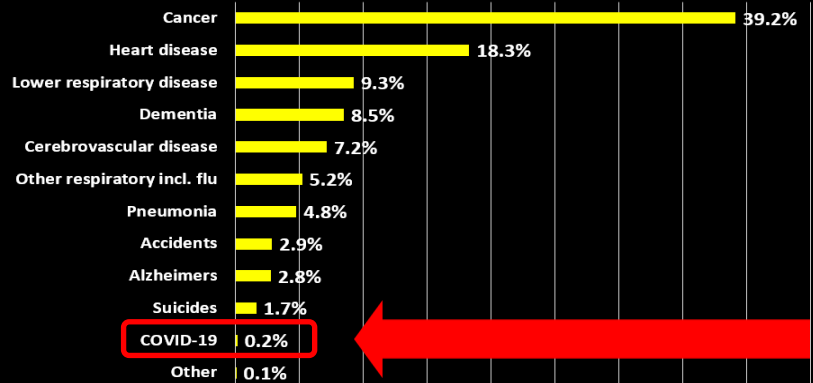

Figure for COVID-19 are deaths caused only by COVID. Sources: CSO & HSE

Broken leg? It's COVID!

If you go to hospital with a **broken leg** and, while there, are also given the unreliable COVID PCR test and the result is "positive", then you will be recorded as a hospitalised COVID "case/infection". This happens even though you have **no symptoms** and are only being treated for a broken leg.

This **dishonest and exaggerated reporting is official HSE and WHO policy.** Confirmed to the Dáil (29/09/20). See <https://www.bitchute.com/video/MZkgvaQEh17/>
