

28-Year-Old PhD Physical Therapist DEAD 2 Days after vaccine

hpv hpv-vaccine-side-effects.com/covid-19-vaccine-side-effects-world-map

An overview of Covid-19 Vaccine Side Effects and Allergic Reactions worldwide.

2/28/2021, Indiana, USA

“Mrs. Brinkmeyer received an mRNA shot on or around Tuesday, January 19. It is unclear whether it was the Pfizer/BioNTech or Moderna shot. She died two days later, according to her mother, Shauna O’Neill Link. Mrs. Brinkmeyer’s sudden death shocked everyone in her family, and left her young husband with a void that is unlikely to ever be filled. A heartbroken Shauna did not mince words about her daughter’s death.”

The number of similar cases is growing like crazy. It’s almost impossible to keep up with all the messages.

2/24/2021, USA

Mel Detman Negley about her Covid-19 experience

My story for now & this hard for me considering this is a public group (I originally shared this in a public group) but hear me out. I got my first dose of the Moderna shot on 01/07. The first few days I was perfectly fine other than the normal arm pain. I was tired too which seems somewhat normal. Nearly three weeks later I'm not doing so well. Here I sit really debating writing this because I will not put up with the "I told you so's", "how can someone be that stupid" or "why would you that to your self." I'm one that is usually pro vaccinating but I will not be receiving the second dose of Moderna. Here are my current symptoms:

- Fatigue.

- Right side arm and leg weakness that also feels like a burning, tingling & heavy sensation.
- Joint pain that's severe in mostly every joint in body.
- Lower back pain.
- Lower abdominal pain.
- Headache.
- Nausea.
- Anytime I eat my abdominal pain and nausea is worse.

I'm worried the ER won't help me so I haven't called 911 or even gone there yet. Please don't make me feel any more stupid than I already feel. I'm not okay. Currently laying in here a ton of pain & about to be in tears.

Edit to add: I've tested negative for COVID twice.

Edit #2: I'm 33. Past Hx of endometriosis and Lyme Disease. Im just now going into the ER. Y'ALL past Hx means the past in regards to Lyme. Also, since some think they know 100% what they're talking about I have had a hysterectomy. Endo also has not yet been classified as an autoimmune disease.

Edit #3 Had blood work drawn and a CT. Probably will all be normal.

Edit #4: being admitted to the hospital under Neurologist orders.

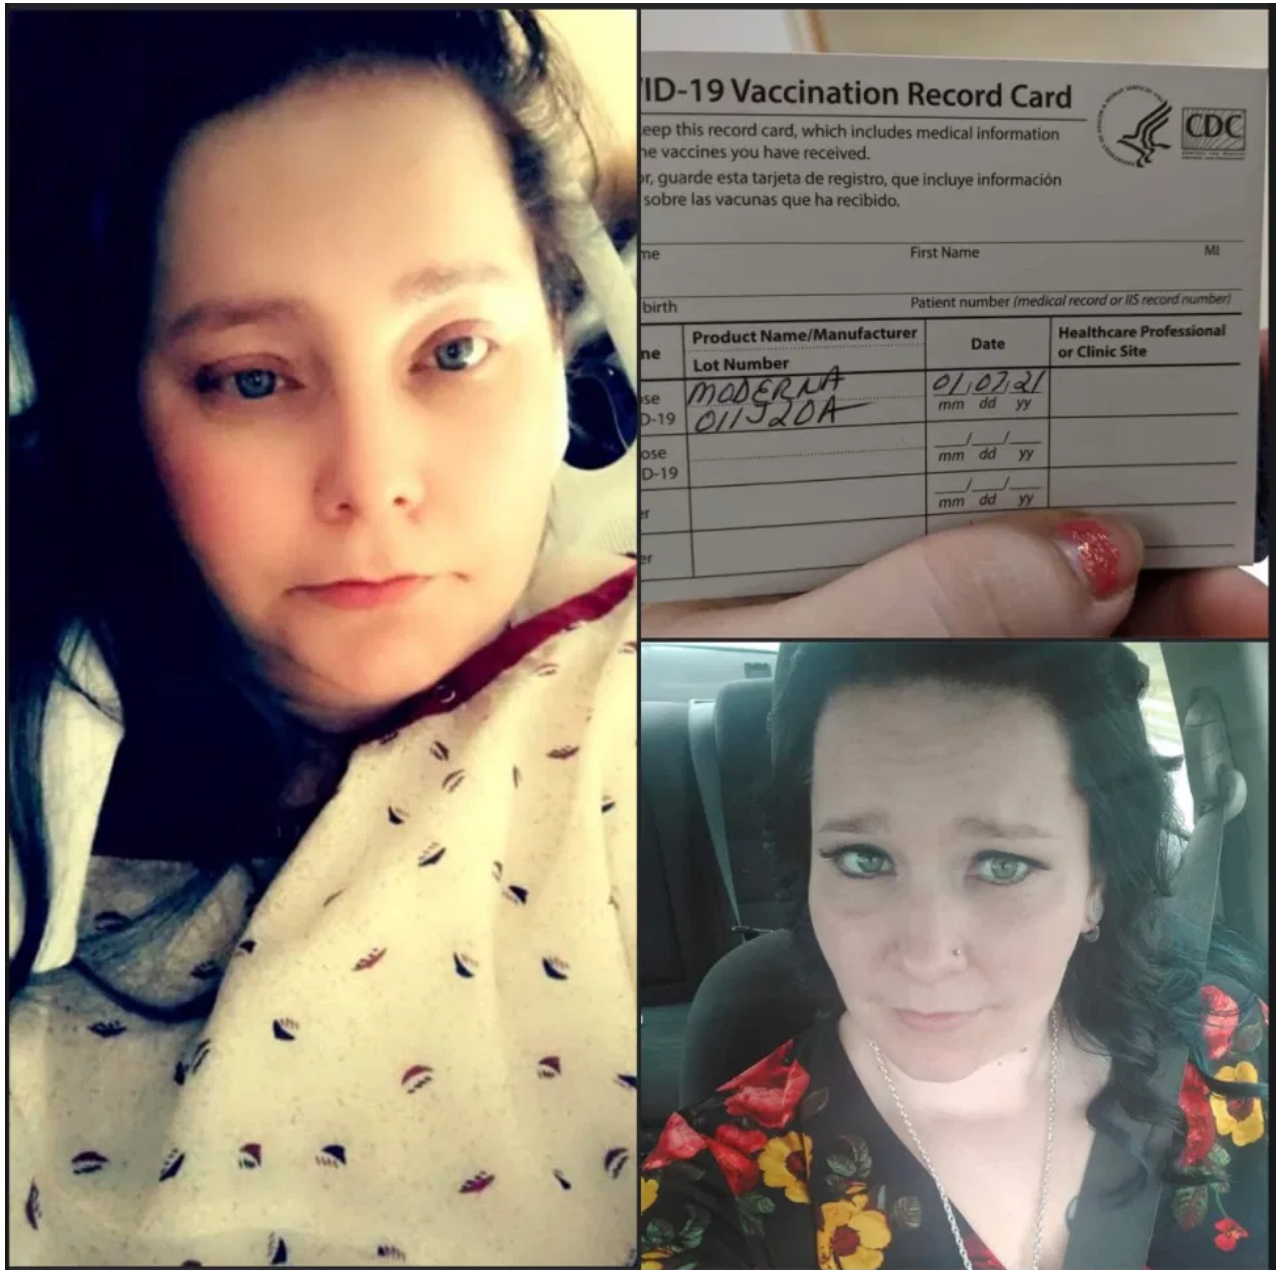

Edit #5 So far I'm being diagnosed with hemiplegic migraines that cause MS/stroke type symptoms. Doctor does believe the vaccine may have exacerbated my symptoms (Neurologist). Still 100% ruling out a stroke. I had a weird reaction to the contrast & started seeing spotters in my eyes & legit panicked. A GI doctor and Internist will be seeing me. I've been on Dilaudid every 4-6 hours.

Edit #6 After some awful shares & awful comments elsewhere I had debated on deleting this entire post. Its been hard for me not to. Anyway, I am home now. I saw internal medicine & found out I have some issues with my kidneys now too. Not even sure if that's vaccine related. Although, I never had issues before. My lower abdominal pain is getting better. My nausea isn't constant. My joint pain isn't constant either. I'm praying it continues to get better overtime. Still not getting the second dose of Moderna.

Edit #7 Still feeling I'm on the road to recovery. Working with a doctor to help me through this.

Edit #8 I have gone back to work but I am not able to hit 5 days a week. I'm down to 3 days a week. I'm very fatigued. I'm having very intense lower body tremors at times. I also know am having kidney issues and never had kidney issues before.

Left picture is me in the hospital. Right is me on a pretty good day.

There are so many similar stories out there. It's outrageous, especially because pro-vaxxers (also doctors & scientists) are ignoring them. If I wanted to post all of those stories it would already be a fulltime job.

Please keep sharing those stories. People need to know!

Woman Dies Immediately After Getting COVID-19 Vaccine in Virginia

“A 58-year-old mother, grandmother and minister died on Jan. 30, 2021 in Tappahannock, Virginia less than an hour after receiving the first dose of Pfizer/BioNTech’s experimental messenger RNA (mRNA) BNT162b2 vaccine for COVID-19. After getting the shot at a clinic in Warsaw, VA, Drene Keyes (left in photo) waited the recommended 15 minutes to make sure she did not suffer any immediate side effects of the vaccine.”

2/21/2021, Finland

A total of 611 incident reports had been made in Finland, 187 reports of serious adverse events, 21 reported deaths

“A total of 611 incident reports had been made in Finland regarding the corona vaccine , according to information updated by Fimea on Friday. [19th February, 2021]

Most of them concern the mRNA vaccine developed by Biontech and Pfizer under the trade name Comirnaty. By Friday, eight harm reports had been made for the Moderna vaccine and seven for the Astra Zeneca vaccine. There were 187 reports of serious adverse events.

In some reports, the person has already received a second vaccine, after which the reactions have been more severe than with the first vaccine.

On 16 February, Fimea, the Finnish Center for Safety and Development in the Pharmaceutical Sector, said it had dealt with 21 reports of coronary vaccine-related adverse events in which the patient was reported dead. Most of the deaths have been over the age of 80.”

2/14/2021, Romania

Many reports of deaths and vaccine injuries from Romania and Slovakia

International news media and regional media are downplaying every single complication and death caused by the Covid-19 vaccine. That's the reason why we do not get informed about cases happening in other countries. Thanks to the comments of "Vitruvian" on this page I got informed about the following cases.

“A **79-year-old Slovak man died after being vaccinated** with a coronavirus January 26th, 2021 Slovakia”

<https://www.aktuality.sk/clanok/859285/koronavirus-po-ockovani-zomrel-na-slovensku-79-rocnny-pacient/>

“An **university professor died after being injected with the first dose of Pfizer / BioNTech** vaccine. Ioan Dzițac, former rector of Agora Oradea University...”

<https://www.activenews.ro/stiri/Un-profesor-universitar-a-murit-dupa-ce-a-fost-injectat-cu-prima-doza-de-vaccin-Pfizer-BioNTech.-Ioan-Dzitac-fost-rector-al-Universitatii-Agora-Oradea-era-fericit-ca-s-a-vaccinat-165115>

“A **nurse from “Marius Nasta” died a week after receiving the booster dose** of the anti-Covid vaccine”

<https://stirileprotv.ro/stiri/actualitate/o-asistenta-medicala-de-la-zmarius-nasta-a-murit-la-o-saptamana-dupa-ce-a-primit-doza-de-rapel-a-vaccinului-anti-covid.html>

There are for sure many more cases but the news media is ignoring them pretending that they don't exist. It's outrageous.

(Covid-19 Vaccine Side Effects World Map – bit.ly/vaxxmap)

2/14/2021, USA

653 Deaths + 12,044 Other Injuries Reported Following COVID Vaccine, Latest CDC Data Show

From the 2/4/2021 release of VAERS data:

Found 12,697 cases where Vaccine is COVID19

Table

	 	
Event Outcome	Count	Percent
Death	653	5.14%
Permanent Disability	208	1.64%
Office Visit	1,653	13.02%
Emergency Room	20	0.16%
Emergency Doctor/Room	2,772	21.83%
Hospitalized	1,382	10.88%
Recovered	4,734	37.28%
Birth Defect	15	0.12%
Life Threatening	468	3.69%
Not Serious	4,569	35.98%
TOTAL	† 16,474	† 129.75%
† Because some cases have multiple vaccinations and symptoms, a single case can account for multiple entries in this table. This is the reason why the Total Count is greater than 12697 (the number of cases found), and the Total Percentage is greater than 100.		

“The numbers reflect the latest data available as of Feb. 4 from the CDC’s Vaccine Adverse Event Reporting System website. Of the 653 reported deaths, 602 were from the U.S. The average age of those who died was 77, the youngest was 23.”

https://childrenshealthdefense.org/defender/vaers-injuries-covid-vaccine-cdc-data/?itm_term=home

Who to follow

“Sara is in a coma, fighting for her life with a brain injury. Unfortunately she is uninsured at the moment, and needs as much support as possible, we are far from a wealthy family, and I don’t want her to worry about medical bills, the cost of therapy, and so on, when she gets out, I just want her to be 100 percent focused on her recovery. Please, anything helps. Thank you. #SticklesStrong”

UPDATE: “Today My mom, siblings and I were asked to come to the hospital to say our goodbyes to Sara. Sara had a hemorrhage stroke in her brain stem on Sunday Feb 7th, at the young age of 28. She has been on life support ever since. After all of the tests run, and the MRI results, **the Doctors determined that there is no possibility of recovery and eventually her body will shut down.** Because Sara is an organ donor they will continue to keep her body alive until it is time to harvest them. Sara will go on to save countless lives. She continues to give her gifts even after she has gone home to heaven. My sister is truly an amazing angel.

We will be planning visitation and funeral arrangements to come. Thank you so much to all the wonderful people who have donated and continue to show love and pray for our family in this very difficult time. We appreciate every single one of you.”

My older brother... my hero. He fought so hard for life. Over five years in a nursing home hanging on with everything he had because he loved people and he loved life. He was stronger than death for so many years and everytime he would need hospitalization when his blood oxygen levels dropped... due to piss poor monitoring, he would fight back and be returned to his room at the nursing home. When he died, my gut screamed out something was not right. He died eleven days after receiving Satan's cocktail. I guess the government and the state of Indiana got tired of paying his bill. Fuck you Gates, Fauci et al! I will see you and yours in Hell!

Sharing in hopes of saving someone else's life...

My dad died 72 hrs after receiving the Moderna jab. He was 75. He was not in perfect health, but was living a normal, productive life, cutting almost 20 acres of property, eating healthy, hanging out with his friends, golfing, and was supposed to leave for a 6 week vacation w my mom next week.

He got the shot on Tuesday about 11:50am. He spent the afternoon hanging out with friends (had a few cocktails) and then cut grass for a couple hrs. That evening he was feeling achy and tired.

Within 24 hrs his symptoms included nausea, vomiting, diarrhea, anorexia (inability to eat), back pain, dizziness, poor color, and fatigue. This continued for 2 days. He tried to drink water and stay hydrated, he was not able to eat. Thursday night he had extreme diarrhea. We also noticed he was having trouble picking up his feet to walk, he was shuffling his feet and unstable. He did not say anything to us, he thought he had a stomach bug. He had some OJ Friday morning. My mom left to run errands and when she came home at lunchtime, she found my dad, he was already gone.

Basically, he was sick within hrs of the jab and dead in 72 hrs post jab. Not a coincidence.

Please warn others.

Violet Davila Lewis

Day 26:

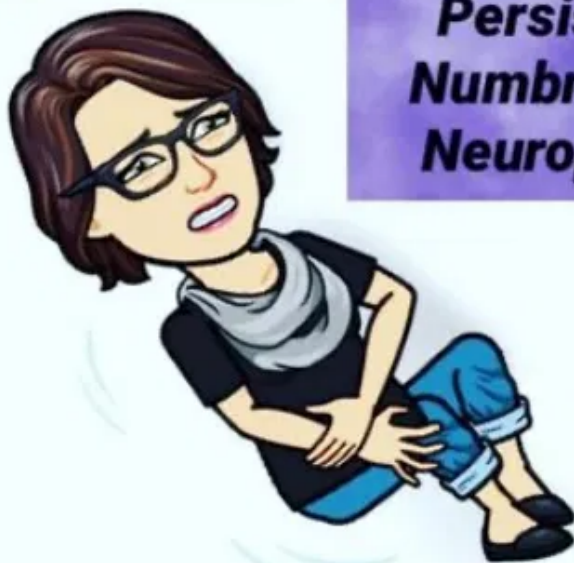

Post COVID19 Pfizer Vaccine Allergic Reaction 1.16.2021

I have persistent numbness in my body more in my upper arms and back along with headaches, nausea and fatigue. I saw the neurologist this week and she confirmed I have nerve damage. Hopefully it will go away with time! Every doctor I have seen says the same thing, "We don't know much about this vaccine." I am walking in uncharted territory and will continue to update you as things progress. I appreciate everyone's messages and prayers for improvement. Again, this post is meant to inform you about my personal experience and reminding you that vaccination is a personal choice.

3d ·

Admitted a patient tonight to hospice at home, 82 years old, Alzheimer's disease, otherwise she was stable and in her usual state of health. Received Moderna dose on Tuesday, 2/2 at 9:30am. By 1:30pm she was shaking uncontrollably and shortly thereafter vomited. Through the afternoon and evening she became lethargic and drowsy, unable to form any coherent words. Placed in bed about 7pm for the night, with a temperature of 99, baseline about 97.5. By the next morning, temp was 100.0 and she began oxygen desaturating into the 70%'s on room air with shortness of breath. She was transferred to the hospital at that point. Family was told she probably wouldn't make it through the night last night, she did, but she was imminent when I admitted her this evening and in respiratory distress, and mottling. She will not likely make it tonight. They are calling it septic shock. She did not have any recent infections whatsoever and did not display any signs of any infectious or inflammatory process until those 4 hours after she received her vaccine.

2/7/2021, Belgium

Belgian Federal Agency for Medicines and Health Products: 467 people experience adverse health events after Covid vaccine. 21 died.

“**Death was reported in 21 of the 467 Belgian reports.** The fact that these deaths do not show a common clinical picture is a rather reassuring element, as is the fact that the deaths occurred after a different time span. The evaluation of the deaths also took into account clinical conditions or signs present before vaccination and the natural history of these conditions, along with the general condition of the patient. To date, no formal causal relationship with the COVID-19 vaccine has been established.”

They always know immediately that it was not the vaccine, which is unbelievable just because it is a lot of work to prove the connection, like several vaccine injury court cases have shown.

Every single day many people are posting their Covid-19 Vaccine stories and politicians are not listening!

“My mother in law just died suddenly today. She received the COVID shot on Jan. 21st and died from either heart attack or stroke. We do not know if it was MODERNA or Pfizer. “

Martha Huckabay

January 30 at 2:14 PM · 🌐

Please pray for my Husband Gary and his sister Leslie and our family. My mother in law just died suddenly today. She recieved the COVID shot on Jan. 21st and died from either heart attack or stroke. We do not know if it was MODE RNA or Phizer.

My step daughters Grandmother also had a stroke two day's after receiving COVID shot.

Tonight is Leslie Huckabay's daughter Chelsea's wedding here in NOLA. GJ is Chelsea's Grandmother.

Gloria Huckabay Brown is now with the Lord dancing on Golden streets.

Please pray for the Lord to comfort everyone especially my sister in law Leslie Huckabay and my husband Gary Huckabay. They are devastated.

My heart hurts for the loss of my precious mother in law Gloria Brown whom I loved.

GJ had the most beautiful southern accent you had ever heard. She was a true southern bell. I miss her voice already. When she'd say my name she would draw out the a Maaartha darlin.

She was something else. Truley one of a kind!

I love you GJ, you will be missed! 😞.....

You and 59 others

Facebook is increasing censorship!

Facebook is not only closing down all groups where people shared Covid-19 Vaccine experiences, but is also actively **deleting posts of people sharing their own personal vaccine experience**. This is a crime in my opinion and I really hope that they will face legal consequences anytime in the near future. **#Censorship**

BTW... right now I got **silenced on Twitter for 12 hours** because I posted a story from Facebook.

Please find below some of the stories I've posted on Twitter in the last few days.

VAERS – the Vaccine Adverse Event Reporting System of the CDC is down since two days!

This is unbelievable... VAERS is down since two days now.

That means nobody can report adverse reactions or vaccine injuries in the USA!!

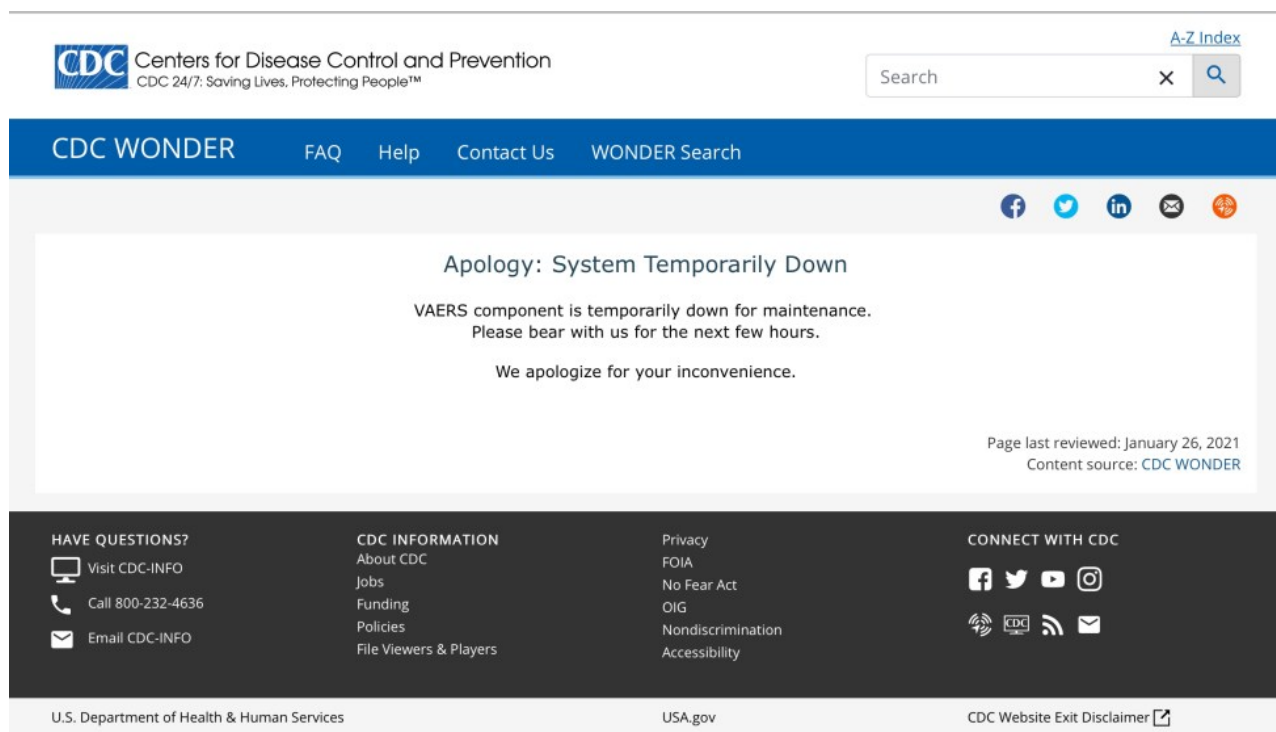

Have you ever seen Google or Microsoft down for two days?

No? Because every important company/organization has backup systems in place that kick in as soon as the main system fails.

And guess what... **no news outlet is reporting it.** This should be the headline everywhere. **Please copy and share it!!** #coverup

UPDATE 1/28/2021: The VAERS interface where hospitals and private citizens can report adverse events was down from Monday morning (1/25/2021) until Wednesday night (1/27/2021). No explanation was given. No news outlet reported about it.

VAERS Official database: (United States – Centers for Disease Control and Prevention): [CDC – Vaccine Adverse Event Reporting System \(VAERS\)](#).

The screenshot shows the CDC WONDER website interface. At the top, the CDC logo and name are visible, along with a search bar and a link to the A-Z Index. Below the navigation bar, a central message box states: "Apology: System Temporarily Down. VAERS component is temporarily down for maintenance. Please bear with us for the next few hours. We apologize for your inconvenience." To the right of this message, it says "Page last reviewed: January 26, 2021" and "Content source: CDC WONDER". The footer contains links for "HAVE QUESTIONS?", "CDC INFORMATION", "Privacy", and "CONNECT WITH CDC".

“He was in good health that morning with no complaints.”

Please, share and don’t forget people like him. He wanted to do the right thing but paid with his life for it. For sure he didn’t know that this vaccine could end his life even though he was healthy and not too old.

Write-up: Cardiac arrest within 1 hour Patient had the second vaccine approximately 2 pm on Tuesday Jan 12th He works at the extended care community and was in good health that morning with no complaints. He waited 10-15 minutes at the vaccine admin site and then told them he felt fine and was ready to get back to work. He then was found unresponsive at 3 pm within an hour of the 2nd vaccine. EMS called immediately worked on him 30 minutes in field then 30 minutes at ER was able to put him on life support yet deemed Brain dead 1-14-21 and pronounced dead an hour or so later

More and more people are reporting side effects on Facebook

“Had my first oxford astro zeneca jab ,yesterday afternoon, developed a headache that gradually got worse throughout the night, early nite with very little sleep zz climbed out of bed about 4am ,as couldn't sleep, had slight temperature, aching in places never knew could ache lol, headache, feeling sick, dizzy arm felt very heavy ,took paracetamol etc eased of slightly, went into work, but had to return home due to the symptoms returned, and anxiety caused by my manager, saying shouldn't feel like that, wtf lol, took paracetamol throughout the day and had little sleep starting to feel bit better now, hopefully over the worse now”

Not everybody has Facebook, not everybody will report it on Facebook. It's obvious that the amount of people experiencing side effects is high...

Ali Stuck works in long term care, reports vaccine is unsafe

Ali Stuck shared her first post.

New member • 7 h •

Ok let's just get down to the details, this vaccine is unsafe I work in long term care we vaccinated all of our residents! They almost all had a temperature at some point one had obvious neurological responses and another I had to send to ER with p 174 r 25, she appeared fine and if I didn't take her vitals when I did I guarantee you she would have died! They gave her tons of meds to get her back to normal...point is this vaccine isn't safe if that was my experience with 12 residents in my care that means 1/12 could have died, 1/12 could possibly have permanent neurological issues, and 12/12 had minor temporary reactions and that is all one day after the first shot, then the Er doc proceeds to tell the daughter he isn't sure if it was from the vaccine...tf he mean she had no history of heart problems ever...I told the daughter everyone has to make their own choices on this stuff and I suggested she do her own research before she decides to take second dose lol wtf that's what kills me we just keep insisting people take it and nothing is a possibly a good reason to not take it

Don’t Pressure the Vaccine-Hesitant

“For example, with the Moderna vaccine, the frequency of **grade 3 adverse events** — those severe enough to prevent daily activity, including fatigue and muscle pain — is higher than it is for most vaccines: **17.4 percent**, or nearly one in five 18-to-64-year-olds who received the vaccine in the company’s trial. “

Don't Pressure the Vaccine-Hesitant

By Peter Doshi and Jennifer Block

Dr. Doshi, an associate professor of pharmaceutical health services research at the University of Maryland School of Pharmacy, leads the Restoring Invisible and Abandoned Trials Initiative. Ms. Block (@writingblock) is the author of "Everything Below the Waist: Why Health Care Needs a Feminist Revolution."

[Read More](#)

There's another reason health leaders should resist the hard sell: The vaccines are not risk free. Most side effects appear to be mild and short lived, but not all. For example, with the Moderna vaccine, the frequency of grade 3 adverse events — those severe enough to prevent daily activity, including fatigue and muscle pain — is higher than it is for most vaccines: 17.4 percent, or nearly one in five 18-to-64-year-olds who received the vaccine in the company's trial. (Grade 3 adverse events appear to occur less frequently with the Pfizer vaccine, but a direct comparison is not possible.) And there have been some serious allergic reactions. It's reasonable for people to weigh all of this in making their decisions.

Karl Dunkin and his wife are reporting severe side effects

„The last 8 days have been incredibly challenging. I had little interest in sharing the details of our lives publicly but through our experience it has become clear that information to help those **suffering from the Covid Vaccine** is minimal. **Public groups to share experiences with the vaccine have been actively deleting posts** describing my husband's experience as it doesn't follow the message they want you to hear.“

Shawn Skelton is reporting very serious side effects

„If you are considering the vaccine for covid..... the **MODERNA.... I would advise against it!** I'm in bad shape! **Everyday getting worse** and I'm not getting help or answers! I'm scared to death to say the least! And to find someone willing to attempt to figure this out hasn't been very successful! I went to 2 hospitals today, walked out of deaconess and went to St Vincent. No answers there either. They say let's see a neurologist(who knows when they can see me) **yesterday my tongue began to spasm and it hasn't quit.** Today my **whole body has been convulsing all day!** They sent me home!! I'm posting 2 videos that are quite embarrassing if you know me but I want you to see what's happening to me!

Just please pray for me.,,

Watch her videos here. Viewer discretion is advised. The videos are tough to watch.

Vaccine rollout hits snag as health workers balk at shots

“It is happening in nursing homes and, to a lesser degree, in hospitals, with employees expressing what experts say are unfounded fears of side effects from vaccines that were developed at record speed. More than three weeks into the campaign, **some places are seeing as much as 80% of the staff holding back.**”

82-year-old resident at Sola nursing home dies one day after being vaccinated against COVID-19

“The person in question was vaccinated shortly before the death,” municipal chief physician Pernille Hegre Sørensen noted in a press release from Sola Municipality.”

Remarks: Obviously everybody can argue whether old people have a higher chance of death, but in Norway as anywhere else they actually DO NOT vaccinate people with underlying conditions. Nevertheless health departments all over the world will always conclude afterwards that the person obviously had underlying conditions, but why would they vaccinate someone in bad health in the first place?

The love of my life, my husband Gregory Michael MD an Obstetrician that had his office in Mount Sinai Medical Center in Miami Beach Died the day before yesterday due to a strong reaction to the COVID vaccine.

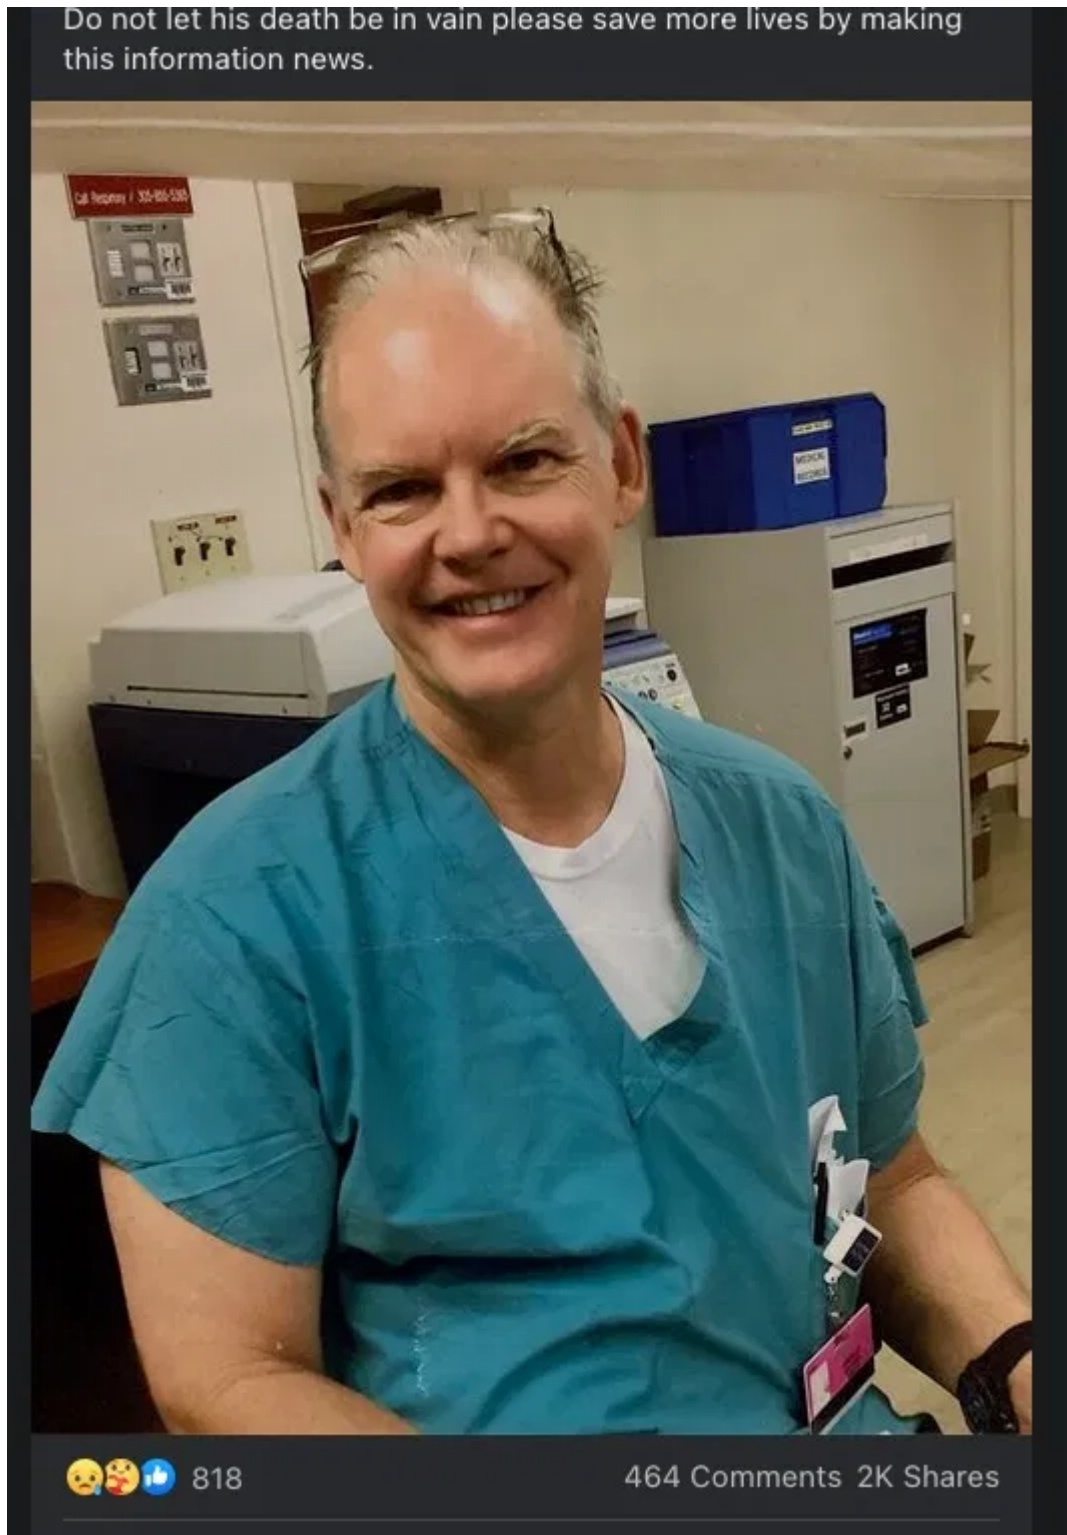

He was a very healthy 56 year old, loved by everyone in the community delivered hundreds of healthy babies and worked tireless through the pandemic.

He was vaccinated with the Pfizer vaccine at MSMC on December 18, 3 days later he saw a strong set of petechiae on his feet and hands which made him seek attention at the emergency room at MSMC. The CBC that was done at his arrival showed his platelet count to be 0 (A normal platelet count ranges from 150,000 to 450,000 platelets per microliter of blood.) he was admitted in the ICU with a diagnosis of acute ITP caused by a reaction to the COVID vaccine. A team of expert doctors tried for 2 weeks to raise his platelet count to no avail. Experts from all over the country were involved in his care. No matter what they did, the platelets count refused to go up. He was conscious and energetic through the whole process but 2 days before a last resort surgery, he got a hemorrhagic stroke caused by the lack of platelets that took his life in a matter of minutes.

He was a pro vaccine advocate that is why he got it himself. I believe that people should be aware that side effects can happened, that it is not good for everyone and in this case destroyed a beautiful life, a perfect family, and has affected so many people in the community

Do not let his death be in vain please save more lives by making this information news.

Israeli Woman Diagnosed With Bell's Palsy After Taking Covid-19 Vaccination

"After reportedly occurring a few times in the United States, an elderly woman in Israel was diagnosed with Bell's Palsy after taking the Covid-19 vaccine.

The woman, Iza Dubinovsky, a 72-year-old resident of Karmiel, started seeing symptoms several days after receiving the treatment. At first, she simply did not feel one side of her face. Following the strange sensation, Dubinovsky went to the hospital where underwent CT scans and head scans that all came out normal. Following this, she was told that the occurrence was indeed a side effect of the vaccine and that after using some medications the condition should pass."
